

Proposed Goal

Namibia's Compact Proposal seeks to reduce poverty through economic growth and foster economic transformation. The proposed program aims to achieve this goal in two ways: increasing the competence of the Namibian workforce (knowledge, skills and attitude), and increasing the productivity of (on-farm and off-farm) enterprises in rural areas. Key sectors proposed include: Education, Agriculture (livestock and indigenous natural products), and Community Based Tourism.

Update on Progress

- In December 2007, the MCC Board of Directors re-selected Namibia to be eligible for MCC Compact funding.
- Since kicking off due diligence in February 2008, MCC has conducted due diligence missions to Namibia for livestock, indigenous natural products, financial management, monitoring & evaluation, tourism, property rights & land policy, economic analysis, infrastructure, environmental & social assessment, education and procurement.
- In April 2008, several missions with MCC staff and consultants will visit Namibia to further refine the activities and budgets associated with the proposed education, tourism, and agricultural development projects, in coordination with MCA-Namibia.
